VENEER

An Cuong stands as a frontrunner in Vietnam, introducing top-tier Veneer offerings. We import all our veneers from manufacturers boasting over 70 years of unparalleled expertise in crafting reconstituted veneers for the furniture industry.

Our approach combines precision, leveraging state-of-the-art European machinery, finely honed by Italian experts. Our unwavering commitment is to deliver the finest products to our customers. We ensure meticulous care through controlled storage facilities and impeccable sanding of wood-based panels before the lamination process. This approach guarantees non-defective panels that maintain a consistently flat profile, compatible with PU, NC, and UV coatings, avoiding any chemical reactions.

Moreover, our value extends beyond product excellence. We offer additional services, including:

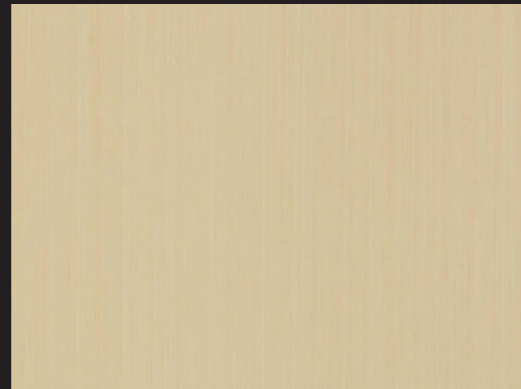

- Application of high-quality film-backed fleece to safeguard against wear and tear. Ideal for various applications like vacuum press, wall paneling solutions, skirting, tabletops, wardrobes, kitchen doors, and rounded pillars.
- Longitudinal spliced veneers using hot-melt glue to create large sheets (2' x 8' or 4' x 8') suitable for laminate sheet applications.
- Laminating service using fungus-free glue compatible with PU, NC, and UV coatings.
- Finger joint service for lengths up to 3-4 meters.
- Veneer edge-band rolls (100m) in standard dimensions (23 x 0.6 mm) or customizable sizes/thicknesses upon request.
- Wrapping veneer service for wall paneling solutions, moldings, door edging, and more.
- UV top-coat and laser curing (available for project-specific needs).
- Options in Melamine MDF or PVC on MDF/Plywood matched to veneer for carcasses, back sides, or other internal surfaces to optimize costs.
