## Sinks

The sinks in the pictures do not have mixer holes. The exact position can be seen from the technical drawing next to the picture.

 POP-UP SINK WASTE Removable remote control for opening and closing the drain. Check for the presence of a second hole.	 COMPLETE WITH ACCESSORIES Product supplied with accessories included. Optional	 WASTE DISPOSER For easier disposal of wet waste. (installation permitted subject to municipal regulations). Optional
 FLUSHMOUNT	 UNDERMOUNT	 STANDARD
		 SLIM

## Taps

 MULTIFUNCTIONAL TAPS all-in-one home solution that allows you to easily choose filtered, sparkling, chilled and instant boiling water	 FILTERED WATER No need to buy bottled water and you can do your bit for the environment.	 TAP WILL WORK WITH LOW PRESSURE SYSTEMS Delivering at least 4 litres per minute of hot water at 0.3 bar pressure.
 TOUCH FREE	 PULL OUT NOZZLE	 PULL OUT SPRAY
		 SWIVEL SPOUT

## Gas Hobs

 DUAL TRIPLE CROWN Thanks to the two concentric crowns, it is possible to select various degrees of flame intensity in accordance with cooking requirements.	 INTEGRATED ELECTRONIC IGNITION Gas ignition device integrated into the knob. Enables gas to be lit with no need for additional flames.	 CAST IRON GRILLES Solid and non-deformable cast iron grilles ensure a stable, robust support surface, as well as lending the hob an elegant, professional appearance. Optional
 DUAL CROWN The flame is distributed across the two crowns, for rapid, even cooking.	 SAFETY VALVE An essential device that cuts off the gas flow in the event that the flame is accidentally extinguished.	 KNOBS Available in various finishes, the worktop knobs can be matched to the ovens, for a perfectly coordinated look. Optional
 CAST IRON GRILLES Solid and non-deformable cast iron grilles ensure a stable, robust support surface, as well as lending the hob an elegant, professional appearance.	 LOWERED COOKING SURFACE The cooker top and burners are recessed into the kitchen worktop, for the flattest possible surface.	

## Induction hobs

 BRIDGE This function enables you to use two induction zones separately or link them together when you're cooking for a crowd. For example you can create an internal 'bridge' that joins the front left cooking zone to the rear left zone.	 KEEP WARM This function keeps food hot after cooking so it can be served at the perfect temperature, and enables liquids to evaporate slowly.	 MELTING This function brings food to an ideal melting temperature without risk of burning.
 FLEXI ZONE This function enables two cooking zones to be combined form 1 large cooking zone and used at the same level of power.	 BOILING This function brings water to the boil and keeps it at this temperature with less energy consumption.	 GRILLING Designed for grilling food according to thickness. When the ideal temperature for adding the food is reached, the hob emits an acoustic signal. The hob then stabilises the desired temperature, keeping it constant.
 COOKASSIST/SPECIAL FUNCTIONS With this function, the pre-set cooking modes can be activated, enabling the ideal power level to be selected, for perfect results every time.	 SIMMERING This function maintains a low temperature, enabling food to be cooked for long periods with no risk of burning. Ideal for long cooking times.	 MOKA A function designed for use with a moka coffee pot.
		 PAN FRYING Function for preheating an empty pan, or a pan containing seasoning.

## Ovens

 STATIC COOKING For cooking any type of dish on a single shelf. It is preferable to use the shelf on the second level.	 COOKASSIST This function enables all food types to be cooked fully automatically.	 STEAM COOKING This function enables food to be cooked exclusively using steam - for preparing tasty, healthy dishes.
 BOTTOM COOKING For browning the bottom of your dishes. This function is also recommended for slow cooking, for finishing steaks and for making thick, concentrated sauces.	 AUTO BREAD This function automatically selects the best baking method and ideal temperature for all bread types.	 THERMOVENTILATED COOKING + STEAM This function enables combined steam cooking, for dishes that are golden and crispy on the outside and soft on the inside.
 VENTILATED COOKING For baking cakes and desserts with a liquid filling on a single shelf. This function can also be used for cooking on two shelves. Invert the position of the dishes you are cooking, for more even results.	 BREAD For baking breads of different types and sizes. It is preferable to use the shelf on the second level.	 MULTICOOKING This function allows up to 4 different dishes to be cooked at the same time without mixing flavours.
 ECO THERMOVENTILATED COOKING For cooking roasts with stuffing and cuts of meat on a single shelf. This function intermittently activates the fan at a low speed, preventing food from drying out. With this ECO function, the light remains off during cooking.	 AUTO DESSERT This function automatically selects the best baking temperature and mode for any type of dessert (biscuits, sponge cakes, tarts, etc.).	 PIZZA COUNTRY This cooking mode delivers the most heat in the lower part of the oven, whilst simultaneously delivering heat above, imitating the heat distribution of a wood-fired oven.
 THERMOVENTILATED COOKING For simultaneously cooking different foods which need the same cooking temperature on several shelves (max. three). This function enables dishes to be cooked at the same time without the flavours or odours leaching from one food to another.	 PROVING For optimal leavening of sweet or savoury doughs and mixtures.	 QUICK COOKING The most powerful function. It can be used ahead of any type of cooking in order to rapidly reach the selected temperature, before proceeding with the desired cooking function.
 GRILL For grilling chops, skewers and sausages, cooking vegetables au gratin or giving bread a golden crust. When grilling meat, it is advisable to use a drip pan to collect the cooking juices: place it one level below the grill and add 200 ml of water.	 DEFROSTING To speed up food defrosting.	 TOP COOKING (for gas ovens) This function can be used for putting the "finishing touches" on cooking. Also ideal for baking and browning.
 TURBO GRILL For roasting large pieces of meat (leg joints, roast beef, whole chickens). It is advisable to use a drip pan to collect the cooking juices: place it one level below the grill and add 500 ml of water.	 PREHEATING For rapidly preheating the oven.	 BOTTOM COOKING (for gas ovens).
 MAXI COOKING For cooking particularly large cuts of meat (over 2.5 kg).	 PYROLYTIC CLEANING Eliminates cooking residues by means of a very high temperature cycle.	 SPIT ROAST (for gas ovens) The ideal function for rotisserie cooking (whole).
 PIZZA This function automatically selects the best baking temperature and mode for any type of pizza.	 STEAM CLEANING The action of the steam that is released during this special low-temperature cleaning cycle enables dirt and food residues to be removed with ease. Pour 200 ml of drinking water into the bottom of the oven and activate the function for 35 minutes at 90°C. Activate the function when the oven is cold, and leave to cool for 15 minutes at the end.	 GRILL WITH SPIT ROAST For immediate browning of the surface of food, ensuring it remains tender inside.

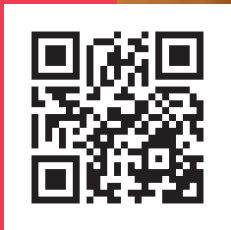

## Microwave

 MICROWAVE For fast cooking and heating of food or beverages.	 COMBINATON GRILL Cook and grill food quickly by combining the microwave and grill.	 AUTO THERMOVENTILATED COOKING For rapid oven cooking and optimal results. Use pans that are oven and microwave safe.
 MICROWAVE For fast cooking and heating of food or beverages.	 TURBO GRILL For perfect results, combining the action of a grill and a fan oven.	 AUTOMATIC DEFROST For rapid defrosting of different food types - simply select the weight.
 COMBINED THERMOVENTILATED COOKING For preparing oven-cooked dishes fast.	 COMBINED TURBO GRILL For cooking and browning food quickly, combining the functions of a microwave, grill and fan oven.	 AUTOMATIC REHEATING For reheating ready-to-eat food, both frozen and at room temperature.
 GRILL For browning, grilling or cooking dishes au gratin.	 PREHEATING For rapidly heating the oven before a cooking cycle.	 STEAM COOKING For steaming food such as vegetables or fish, using the steamer provided.

## Hoods

DIGITAL DISPLAY 	TIMER 	ANTI CONDENSATION 	REMOTE CONTROL 	REMOTE CONTROL OPTIONAL 	CONTINUOUS VENTILATION 24 h 	SPEED NUMBER + INTENSIVE 	FILTER FUNCTION 	K-LINK TECHNOLOGY

# Years of experience, yet still as curious as kids.

At Franke, we have been looking for new solutions and innovations for over 100 years and our attitude still has not changed. In 1911 we combined traditional craftsmanship, precision engineering and a constant pursuit of innovation, three principles that remain at our core.

## A story forged in Swiss precision

Our story began at the beginning of the last century as a small sheet-metal business in Rorschach, Switzerland, established by Hermann Franke.

Since then, we opened up to the world and inaugurated manufacturing facilities all around the globe that led us to become leaders in the kitchen sinks segment, and home solutions altogether.

# The recipe for a healthier future

We're on a mission to help create a more sustainable planet, one innovation at a time. From designs built with the use of sustainable materials, to efficiency optimization and waste reduction, we act responsibly throughout our business and beyond for positive long-term impact.

## Taking care of the environment

Our vision is to reach net-zero greenhouse gas (GHG) emissions across our value chain by 2050 from a 2020 base year.

We have established clear goals that support this ambition to contribute to a more sustainable world for our customers, employees, and society.

We developed our near-term and net-zero targets in 2023 in line with the Paris Climate Agreement, and they were validated by the Science Based Targets initiative (SBTi) in February 2024, setting a cornerstone in our sustainability journey.

## Resources

In 2023, we continued the switch from Styrofoam packaging to cardboard for the Franke range of Fraganite and Tectonite material sinks across Franke's distribution centers around the world.

Franke's total share of renewable packaging was 89.9 percent in 2023.

## Waste

75% of waste across Franke Group was recycled.

## Packaging

Franke has switched from Styrofoam to cardboard packaging for its range of granite and tectonite sinks.

91% of Franke packaging is made from renewable materials.

## Creating a proactive safety-first culture

People are at the core of what we do, and their safety needs to be a pre-condition of how we work. This approach is enshrined in our company values and drives our safety and occupational health measures. We view the prevention of physical and mental harm and the promotion of workers' health and wellbeing as a key responsibility in recognition of the fundamental human rights of workers.

**“ We've reduced our scope 1 and 2 emissions for eight years running and our net-zero emissions reduction targets have been validated by the SBTi. ”**

Patrik Wohlhauser, Franke CEO

## Innovation for sustainable living

Our eco-friendly innovations are designed to empower cleaner living at home and inspire everyday wellbeing.

### Taps

Stainless steel models are made of 100% recyclable steel. Our multifunctional taps range, including the Mythos Water Hub and the Vital taps with their dedicated filtration systems, reduce need for bottled water. The Atlas Neo Sensor reduces water waste by up to 50%

### Sinks

Franke's sinks ranges are exemplary in terms of usage of sustainable materials such as stainless steel, Fraganite and ceramic that guarantee extraordinary product durability, resistance and long-lasting quality.

### Hoods

All models are designed to reduce energy consumption and improve energy use with AUTO Functions made to automatically save energy. Class A++ hoods reduce energy consumption up to 85%. Long lasting filters and activated carbon ceramic filters can be regenerated and are designed to further reduce waste compared to standard disposable carbon filters.

### Hob extractors

Our extractor hobs offer maximum energy efficiency. For example, the extremely powerful Mythos 2gether extractor hob is classed in the best possible energy efficiency rating A+++ thanks to its brushless motor.

### Ovens and microwaves

With A and A+ energy ratings offering multi functions that enable different foods to be cooked in one cycle, and a steam cleaning function that allows cleaning without the need of using harmful chemicals.

### Refrigerators

Designed with cold zone compartments to ensure food stays fresher for longer, No Frost technology to help prevent defrosting, and Vacation mode which allows you to keep the freezer compartment active when the fridge isn't.

# Experience our new Showroom

Welcome to the Franke's Aarburg Showroom a place of discovery.

It has been key to bring Franke's new positioning to life in the Aarburg showroom concept, as well as in all spaces applying and adapting the new brand styleguide. The new colors from primary to a wide modern secondary colors selection has been applied to the display creating a vibrant, fresh and contemporary design combination.

The highlights are our product families Mythos, Maris and Maris representing in the best way Franke as System Provider. Within the showroom there is also an attention to people and their well-being with open and clear understandable demonstration corners in a delightful natural material surrounding.

Franke's innovations are brought into the showroom with a superior quality look, tone and feel, elevating to the fullest the brand and products experience.

**HOME**

**SOLUTIONS**

## Solutions that work together

Our kitchens are places to live: we cook there, eat there, spend time together there, more often than not all at the same time. We thoroughly observed the movements we make in our kitchens and developed proper home solutions rather than simple appliances.

Our single products all merge together in functional systems aimed to facilitate your life and please your eye thanks to perfectly matching colours, designs and combinations.

When everything comes together, it is easier to enjoy every moment.

### Food preparation areas

**Taps, sinks and waste management systems.**

Award-winning, smart, eco-friendly taps perfectly completed by elegant, spacious bowls that can be equipped with accessories or other smart tools so you have everything you need, always at hand. Everything in the best, most durable and hygienic materials, for example stainless steel or our exclusive Fraganite.

### Hoods

**Wall, ceiling, built-in, island hoods.**

Every kitchen has specific needs, so we created a range of hoods able to surprise you with technology, efficiency, lighting and beautiful designs. Discover the available colours, shapes and special technologies from built-in screens to air-purifying systems.

### Appliances

**Ovens, microwaves, hobs, refrigerators and dishwashers.**

When we design our appliances, we do so with your routines in mind, so that we can offer functional solutions that are easy to use, smart in their features and beautiful to look at.

# Inspir

There is no place like home. And there are no two homes alike. The way we cherish our own nest is just as unique as we are, each one with different tastes, preferences, and needs. To help you get inspired and create the kitchen environment of your dreams, and enjoy it every day, we developed three different **families** of products.

## Mythos

### A passion for the best

Our most premium range. Technology meets design, while even the smallest details are carefully sought-after. This family sets its goal to the highest levels, combining the very essence of functionality with that of beauty.

## Maris

### Family in the kitchen

A family inspired by families. Cosy and functional, for savouring the heartwarming experience of a family get-together. Maris' philosophy is simple: welcome anyone, anytime with the pride and joy of a homemade dinner.

## Smart

### Straight to what matters

The simplest things work the best. Essential in its perfection, to jump to what matters the most: bringing joy to your kitchen. A family created to fulfill any need and preference.

What will your kitchen look like it's up to you,  
but whatever your way of bringing joy home, you can count on us.

# Show what you're made of!

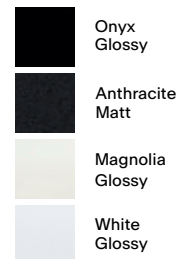

## Fragranite

An exceptionally tough material, highly resistant to burns, dents, chips and stains. Pioneered by Franke, it's a unique material with a subtle sheen that is warm to the touch thanks to its close to 80% of quartz sand. The surface is finely textured ensuring high hygiene standards.

## Fraceram

Ceramic sinks have a smooth, impervious surface, which stands up to heat, staining, impacts and resist to all standard household chemicals with ease. Ceramic sinks have been a popular choice for years and create a classic combination with a variety of work surfaces such as wood, glass and granite.

## F-Inox Technology

An exclusive Franke coating able to group water molecules and allowing you to dry your sink without ring stains. Water repellent and scratch-resistant, this futuristic coating also fears no heat up to 100°. A real and long-lasting beauty formula that you can appreciate from our Masterpiece family.

Shiny or Matt; smooth or stone-like, extra-strong or super trendy. Your kitchen can speak volumes about you, so every detail counts. To offer you the chance to create your very own perfect kitchen, our range of materials is designed to please any taste, match any style and resist any endeavor. Discover each material's precision-engineered character and unique benefits to choose the one that suits your needs the best and you like the most.

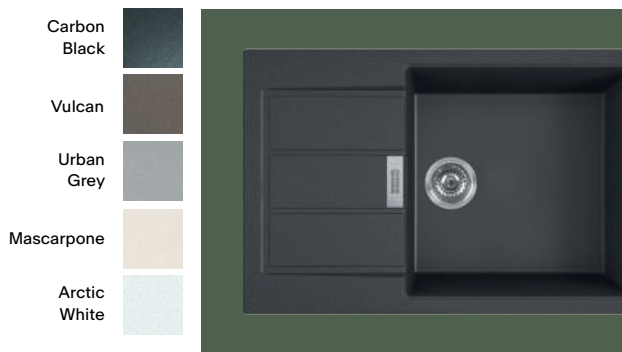

## Stainless Steel

Whether you prefer the more reflective qualities of the polished finish or the more subtle look of the silk or brushed finishes, which give a more matt sheen, there is a Stainless Steel solution for you. Any Franke Stainless Steel product is made from premium quality chrome nickel steel, which looks stunning and is highly resistant to staining, rust and corrosion - plus it won't chip, craze, flake, or break. If Stainless Steel is one of the most popular materials in the kitchen, it's for good reason.

## PVD Coating

PVD, standing for 'Physical Vapor Deposition', is a coating technology that makes Stainless Steel tapware even more resistant to abrasions, scratches and corrosion and offers exceptional aesthetic features as well. A tap treated with a PDV coating even resists UV rays and makes fingerprints less visible in a busy kitchen. There are now an array of other stunning finishes to choose from: Industrial Black, Anthracite, Copper and Gold, you really can find something to suit every style of kitchen.

## Tectonite

Heat, shock and impact don't scare our Tectonite. Sturdiness combined with unique design freedom makes Tectonite sinks the ultimate choice for hardworking, stylish kitchens. New technology represents a giant leap forward for synthetic materials, whilst allowing for exciting minimalist designs in a new plethora of trendy colours.

# It's always been in our heritage to meet your **needs.**

## **Beautiful and made for real-life use. Steel represents our kitchen ideal.**

The sheer quality of Franke products can be seen and felt. We use AISI 304 18/10 steel, which is produced in Italy and Europe: a choice that reflects our dedication to quality, one of our core priorities over the 100-plus years of our history.

Strong and robust, it maintains its brilliance over time, making it the defining feature of the living spaces in which it is installed.

Its superb technical features ensure that it is always in demand, and highly appreciated by professionals in the haute cuisine sector: furthermore, stainless steel is an extremely hygienic material, and is easy to clean and recyclable. Aesthetically pleasing and functional to use: stainless steel really represents quality in shining armour.

## **Customer Care and Technical Assistance**

To report any problems of the product, please contact Customer Service.

The first on the line to help you will be our Authorised Service Partner, providing you with advice and instruction to solve the issue. If unsuccessful, we will proceed by sending you directly the easy-fix parts you will need or the Authorised Service Partner will be available to solve any technical issue and restore the conformity of the product through a repair or a replacement. Do not worry, we are here to help and your satisfaction comes first.

The Customer Service number 1900.225.950

# Downdraft

The motorised Downdraft hood allows for an unobtrusive, subtle kitchen style. The motor is situated in the cabinet underneath the hob which can be vented externally, or in recirculating mode. The motor can be installed at the front or rear according to the position of the kitchen unit. Compatible with gas, electric and induction hobs.

# Wine Cooler

The ideal storing environment for your wine collection which integrates into the beauty of your own kitchen. The optimal conditions usually exclusively guaranteed by an underground cellar are now akin of those our Mythos Wine Cooler can provide, with the noticeable advantage of offering you the chance to have up to 24 of your favourite bottles always at hand.

## A Wine Cooler like no other

The Mythos Wine Cooler temperature can be set from 4° to 18°, ensuring your wine collection is maintained to perfection. Keeping the characteristics of your wine intact, the Anti-UV glass filters enough light through to ensure optimal preservation. The electronic display allows the temperature to be visible at all times and the LED light perfectly highlights every detail, while the 3 sliding premium oak built-in shelves bring elegance to your wine collection.

# Elite Slimline Food Waste Disposer

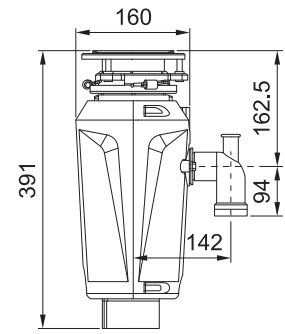

Cook like a chef, grind like a master

## SLIM 75

3/4 HP Disposer  
134.0721.252

Horsepower: 3/4 • Feed: Continuous • RPM: 2700 • Hygiene Safeguard Flange • Sound Softening Insulated Shell • Stainless Steel Grinding Chamber • Twist Force Balanced Grinding System • Jam Resistant • Cast Impellers • Antimicrobial Removable Splash Guard • 3-Bolt installation • Integrated Air Switch Connection

### A powerful performance

Thanks to innovative Twist Force technology that offers exceptional grinding power, you can expect fast and efficient results without jamming. A hygiene safeguard also fights against the growth of bacteria and unpleasant odours with its antimicrobial protection.

### Details that deliver

Each waste disposer features a high-flow splash guard ensuring the grinding chamber is left clean, Sound Soft Technology for noise reduction, and a strong Magnetic Rim on selected models to attract kitchen utensils and other miscellaneous metal objects.

### Elegance under the sink

Thanks to a 3-Bolt Mounting System that makes it compatible with all Franke sinks and bowls that feature a 3 1/2" waste hole, and an elegant-shelled body which is designed to save maximum space underneath the sink, each Elite Slimline Waste Disposer is a refreshing piece of Franke innovation that is a welcome addition to any kitchen.

# Clean & Care

## Overview

General maintenance is wonderfully simple increase the lifespan of your Franke products and prevent the buildup of dirt and limescale by simply wiping down your Fraganite sink, tap and all stainless steel surfaces with a damp cloth and soapy water. Discover more top cleaning tips below.

112.0530.238

### Colored Sink Cleaner (250ml)

Cleaning a colored mineral cast sink is like washing a car. In order to keep it clean you have to make sure the water drops roll off the surface without leaving lime scale deposits. This is exactly what the specialised Franke Kitchen Care Colored Sink Cleaner does. It removes dirt deposits and protects your sink effectively from water stains.

112.0530.239

### Tap Cleaner (250ml)

When looking at a shiny tap, one tends to forget all the technology and mechanics tucked inside. There are valves, cartridges, seals, and filters that might get harmed if you use an aggressive cleaner. The Franke Kitchen Care Tap Cleaner removes all lime scale and dirt gently but thoroughly, thus preserving the beauty and performance of your tap for years.

112.0530.237

### KITCHEN CARE Sink Cleaner (200ml)

A compound uniquely developed for our stainless steel surfaces and their professional cleaning and care. The paste is acid-free and the polishing compounds embedded within it provides for a sustainable and gentle cleaning.
